

# SPORTEC COMPRESSION PRODUCTS

GO LONGER - RECOVER FASTER

Sportec Compression products are manufactured with medical grade compression ensuring maximum compression at the extremity and progressively less up the length of the sleeve. Studies have shown this pressure gradient increases circulation, which removes lactic acid from the muscles, reducing pain during prolonged activity and promoting greater endurance.

## Compression Socks #801

### Features:

- 30mmHg maximum compression for High Performance activity
- Targeted Achilles and Plantar Fasciitis compression zones for extra support of Achilles and foot arch
- Moisture wicking construction keeps feet cool
- Foot sole reinforced cushioning absorbs impact and shock
- Heel and Toe Nano-Silver fiber for antimicrobial action, with low pressure toe to prevent abrasion and blisters

Size	Ankle
XS	17 - 19 cm
S	19 - 21.5 cm
M	21.5 - 24 cm
L	24 - 26.5 cm
XL	26.5 - 29 cm

## Ankle Calf Compression Sleeve #805

### Features:

- Medical grade compression of 20mmHg maximum pressure at the foot and ankle and progressively less pressure to the top of the calf to improve circulation and remove lactic acid from the muscles
- Increased circulation delivers more oxygen to the muscles for maximum endurance and recovery
- Fine Elastic Top Band provides durable anti-slip with maximum comfort
- The loose knit toe area eliminates pressure on the toes for comfort
- Thin breathable construction efficiently transports body heat and perspiration away from the skin

Size	Ankle	Calf
S	19 - 21.5 cm	28 - 38 cm
M	21.5 - 24 cm	33 - 43.5 cm
L	24 - 26.5 cm	35.5 - 46 cm
XL	26.5 - 29 cm	38.5 - 51.5 cm

## Calf Compression Sleeve #811

### Features:

- Medical grade compression of 20mmHg provides maximum pressure at the ankle and progressively less pressure to the top of the calf to improve circulation and remove lactic acid from the muscles
- Fine elastic top band provides durable anti-slip with maximum comfort
- Increased circulation delivers more oxygen to the muscles for maximum endurance and recovery
- Thin breathable construction efficiently transports body heat and perspiration away from skin

Size	Ankle	Calf
XS	17 - 20 cm	20 - 32 cm
S	23 - 23 cm	30 - 36 cm
M	23 - 26 cm	34 - 40 cm
L	28 - 29 cm	38 - 44 cm
XL	29 - 32 cm	42 - 48 cm

## Leg Compression Sleeve #815

### Features:

- Medical grade compression of 20mmHg provides maximum pressure at the ankle and progressively less pressure all the way to the top of the leg to improve circulation and remove lactic acid from the muscles
- Increased circulation delivers more oxygen to the muscles for maximum endurance and recovery
- Thin breathable construction efficiently transports body heat and perspiration away from skin

Size	Hamstring	Knee	Calf
S	44-52 cm	29-33 cm	22-23 cm
M	48-56 cm	33-37 cm	23-26 cm
L	52-60 cm	37-41 cm	26-29 cm
XL	56-64 cm	41-46 cm	29-32 cm
XXL	60-68 cm	46-51 cm	32-35 cm

## Arm Compression Sleeve #816

### Features:

- Medical grade compression of 20mmHg provides maximum pressure at the wrist and progressively less pressure all the way to the top of the arm to improve circulation and remove lactic acid from the muscles
- Increased circulation delivers more oxygen to the muscles for maximum endurance and recovery
- Thin breathable construction efficiently transports body heat and perspiration away from the skin

Size	Biceps	Elbow	Wrist
XS	19-26 cm	17-24 cm	11-13 cm
S	22-29 cm	20-27 cm	13-15 cm
M	25-32 cm	23-30 cm	15-17 cm
L	28-36 cm	26-33 cm	17-19 cm
XL	33-40 cm	20-36 cm	19-21 cm
