

Microfash is a 100% breathable microfibre that provides a leather-like sensation, and is capable of absorbing 8 times its weight in water. Its thermo-regulating ability ensures maximum comfort and total dryness in the interior of the shoe.

MICROFASH is an ethical microfibre

Sustainably
manufactured:
made with limited
CO2 emissions and
water-based
solvents that are free
of health-harming
agents

A vegan material,
does not contain any
animal products

Meets the most
demanding regulation
standards: OEKO-TEX
100 Class 1, REACH
and CADS in relation
to DMF and toluene

Absorption = Total
Dryness

Thermo-regulating

Anti-Allergy

TECHNICAL CHARACTERISTICS

MICRO-SUEDE offers the same benefits of
Microfash, with the look and feel of suede.

- Very comfortable
- Breathable
- Soft and light
- Washable up to 60°C
- Extremely tough, even against
chemical agents
- Very high abrasion resistance
- Extremely versatile
