

ORTHOTIC PRODUCT GUIDE

3623 Spiral Elastic Knee Support

We have upgraded our 3623 Spiral Elastic Knee Sleeve to include a finer elastic with gentle medial and lateral patella supports on either side of the patella opening and a silicone band at the top for suspension. The seamless tapered design provides a comfortable fit and two spiral stays on each side support the unstable or arthritic knee.

| Size | Knee Centre |
|------|----------------|
| XS | 10.5" - 11.5" |
| S | 11.5" - 13" |
| M | 13" - 14.75" |
| L | 14.75" - 16.5" |
| XL | 16.5" - 17.25" |

32W / 3132W Hinge Knee Wrap

We have updated our Hinge Knee Wrap by changing the design to include a patella stabilizer. The new wrap design applies to the front of the knee with two flaps that wrap around the back of the leg to attach with Velcro on the opposite side. The wrap design is easy to put on and adjust. The hinges provide medial lateral support and can be removed and shaped to the leg for a custom fit. Our model number 32W is Neoprene with a felt patella stabilizer and 3132W is Coolcel with a donut foam patella stabilizer. All the Velcro used on these braces is easy to remove for those with arthritic hands.

| Size | 3132W Knee Centre Circ. | 32W Knee Centre Circ. |
|------|-------------------------|-----------------------|
| XS | 12" - 13" | 13" - 14" |
| S | 13" - 14" | 14" - 15" |
| M | 14" - 15" | 15" - 16" |
| L | 15" - 16" | 16" - 17" |
| XL | 16" - 17" | 17" - 18" |
| XXL | 17" - 18" | 18" - 20" |
| XXXL | 18" - 20" | 20" - 23" |

531 Active SA Sling

We have made a few upgrades to the design of our very popular mesh sling immobilizer. The padded strap is now a thicker padding for greater comfort, we are using round plastic rings which stay in place better and the thumb strap is in a better position. As always, the envelope is constructed of high-quality black mesh for cool comfort and the waist strap is removable when only arm suspension is required.

| Size | Elbow to Fingertips | Waist |
|------|---------------------|-------|
| S | < 15" | < 32" |
| M | 15" - 18" | < 40" |
| L | 18" - 21" | < 48" |

ST&G Dial Strap

Each click of the dial adjusts the strap 1mm for a perfect fit in the “close” direction. Easy no-pull reverse click in the “open” direction releases tensions quickly.

DS-100 Dial Lock Strap with Hook and Loop

Prefabricated, durable, and installs in minutes
Adjustable hook and loop closure
1.5" / 38mm width
4" (100mm) of adjustable travel
Usable strap length: max 12.25", min 17.25"
Cut to size

DS-200 Dial Lock Strap with Magnetic Buckle

Has the same design as the DS-100, but with a magnetic buckle. The magnetic buckle eliminates repetitive hooking and unhooking, significantly reducing wear and tear on the strap. The magnetic buckle is rated to 80kg.

Dial adjustment and self-locating magnetic buckle closure can be opened or closed with only one hand.

Easy slide release feature with magnetic self-centering engaging latch. Simply slide the buckle out of the slot to disengage.

To engage the lock, simply put both sides of the buckle in close proximity to allow the magnet to pull the sides together.

NOTE: DS-100 and DS-200 are not intended for volume control, or for adjustable sockets, but for applications that usually utilize hook and loop closures.
